**ITEM 18**  
**PUBLIC FIGURES**

We do not use any public figures to promote our franchise.

**ITEM 19**  
**FINANCIAL PERFORMANCE REPRESENTATIONS**

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

As of December 31, 2025, 80 Centers were owned and operated by our affiliates ("Affiliate Owned"). For purposes of this Item 19, we have excluded 1 Affiliate Owned Center that initially commenced business in 2025, and therefore, did not operate for the entire calendar year. The remaining 79 Affiliate Owned Centers that operated for the entire calendar year 2025 are included in the Data Set (as defined below) for this Item 19.

As of December 31, 2025, 327 Centers were owned and operated by third-party franchisees ("Franchisee Owned"). For the purpose of this Item 19, we excluded (i) 34 Franchisee Owned Centers that commenced operations for the first time in 2025, and therefore, did not operate for the entire year in 2025; and (ii) 2 Franchisee Owned Centers that were temporarily closed during 2025, and therefore, did not operate for the entire year in 2025. The remaining 291 Franchisee Owned Centers that operated for the entire calendar year 2025 are included in the Data Set for this Item 19. This includes 2 Centers that were sold by our affiliates to the franchisees in 2025 and they operated for the entire year in 2025. We included these 2 Franchisee Owned Centers in the Data Set because their performance was not materially different when they were owned by our affiliates or our franchisees.

As a result, the data set ("Data Set") for this Item 19 comprises of 79 Affiliate Owned Centers and 291 Franchisee Owned Centers. Except as described below, there is no material difference between the Affiliate Owned Centers and Franchisee Owned Centers with respect to the data described below.
