

### **Item 19: Financial Performance Representations**

The FTC’s Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provided the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about performance at a particular location or under particular circumstances.

Set forth below is information concerning the average weekly unit sales (“AWUS”) and other financial data of franchised and company-owned Domino's Pizza Traditional Stores located in the United States (not including Stores located in U.S. territories of Guam, Puerto Rico and U.S. Virgin Islands), for the calendar years 2020 through 2024. AWUS is calculated by dividing the total Royalty Sales reported by all Stores operating during the year by the number of weeks reported. Royalty Sales means the total receipts from all sales by the Stores of all pizza, beverages and other products or services authorized for sale at the Stores or at any approved off-site location but exclusive of sales or equivalent taxes, coupon and similar discounts, and beverage container deposits approved by us.

**Total Cash Fixed Costs:** Includes operating expenses that tend to not vary with a change in sales. These expenses include telephone and utilities, rent, repairs and maintenance, professional fees, small equipment and computer expenses, other taxes (real and personal property taxes and business taxes), insurance (excluding worker's compensation), manager salary, and miscellaneous operating expenses.

**EBITDA:** Earnings before interest, taxes, depreciation and amortization. EBITDA is calculated as follows: Royalty Sales minus Total Variable Costs minus Total Cash Fixed Costs plus Supply Chain Profit Sharing and Volume Discount rebates.
