We do not use any public figure to promote our franchise.

ITEM 19 FINANCIAL PERFORMANCE REPRESENTATIONS

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs

from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

Notes

1. “Gross sales” means the total of all sales of all goods and services sold, traded, bartered, or rendered by you and income of every kind and nature, including the value of a trade or other bartering, arising from your franchise business and tangible property of every kind sold by you during the term of this agreement. Gross sales also includes insurance proceeds and/or condemnation awards for loss of sales, profits, or business. “Gross sales” excludes bona fide credits or returns and excludes amounts paid by you for sales or use taxes on the sale of any products or services.

2. “Average” means the sum of all data points in a set, divided by the number of data points in that set.
3. “Average gross sales” means the sum of the gross sales of the locations listed in an applicable group divided by the number of locations in that group.
4. “Median” means the data point that is in the center of all data points used. That number is found by examining the total number of data points and finding the middle number in that set. In the event the number of data points is an odd number, the median will be the center number. If the dataset contains an even number of data points, the median is reached by taking the 2 numbers in the middle, adding them together, and dividing by 2.
5. “Median gross sales” means the center gross sales number of all gross sales included in an applicable group.
6. The earnings claims figures do not reflect the costs or expenses that must be deducted from the gross revenue or gross sales figures to obtain your net income or profit. You should conduct an independent investigation of the costs and expenses you will incur in operating your franchised business. Franchisees or former franchisees, listed in this disclosure document, may be one source of this information.

Some outlets may earn this amount. Your individual results may differ. There is no assurance that you will earn as much.

The information in this Item 19 was taken from financial statements from our company-owned salons and our franchisees. Written substantiation for the financial performance representation will be made available to the prospective franchisee upon reasonable request.

Other than the preceding financial performance representation, GLO Tanning Franchise LLC does not make any financial performance representations. We also do not authorize our employees or representatives to make any such representations either orally or in writing. If you are purchasing an existing outlet, however, we may provide you with the actual records of that outlet. If you receive any other financial performance information or projections of your future income, you should report it to the franchisor’s management by contacting Quinn Cooper, 12335 N. Rockwell Ave., Oklahoma City, Oklahoma 73142, and (405) 708-6320, the Federal Trade Commission, and the appropriate state regulatory agencies.
