

**ITEM 19**  
**FINANCIAL PERFORMANCE REPRESENTATIONS**

The FTC’s Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

**Background**

This Item sets forth certain historical data as provided by our franchisees. We have not audited this information, nor independently verified this information.

**Some outlets have sold this amount. Your individual results may differ. There is no assurance you’ll sell as much.** Written substantiation for the financial performance representation will be made available to the prospective franchisee upon reasonable request.

See the notes following the tables, which are a material part of this Item.
