

ITEM 19
FINANCIAL PERFORMANCE REPRESENTATIONS

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets if there is a reasonable basis for the information and if the information is included in the Disclosure Document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

DEFINITIONS

- (a) Average – means the sum of all data points in a set, divided by the number of data points in that set.
- (b) Calendar Year – means, as to each respective year, the 12-month period commencing on January 1 and ending on December 31.
- (c) Class Volume – means the average number of classes that a DivaDance Business offers to clients per week, calculated as the total number of classes offered by the DivaDance Business during a particular Calendar Year, divided by 52 weeks.
- (d) Company Owned Outlet – means an Outlet owned either directly or indirectly by us, our affiliate or any person identified in Item 2 of this Disclosure Document. A Company Owned Outlet also includes any Outlet that is operated as a joint venture owned in part by us, our affiliate or any person identified in Item 2 of this Disclosure Document, or that is managed by us our affiliate or any person identified in Item 2.
- (e) Dedicated Studio – refers to a fixed retail location owned by a DivaDance Business that is located within the Operating Territory of that DivaDance Business.

In the event the number of data points is an odd number, the median will be the center number. If the data set contains an even number of data points, the median is reached by taking the two numbers in the middle, adding them together, and dividing by two.
- (j) Moderate Class Volume – refers to a DivaDance Business that has a Class Volume of 12 or more classes per week.
- (k) Multi-Territory Franchise Outlet – means a Franchise Outlet that operates within the equivalent of two or more Territories. Franchisees that operate under multiple Franchise Agreements with one Territory

per Franchise Agreement but operate as one business across multiple Territories are reported in this Item 19 as Multi-Territory Franchise Outlets.

- (l) New Company Owned Outlet – means, as to a particular Calendar Year, a Company Owned Outlet that for the first time opened and commenced operations during the Calendar Year. For example, if a Company Owned Outlet first opened for business in February 2024, as to the 2024 Calendar Year, the Company Owned Outlet would qualify as a New Company Owned Outlet and not as an Operational Company Owned Outlet, see definition below. If this Company Owned Outlet remained in operation throughout the 2025 Calendar Year, it would qualify as an Operational Company Owned Outlet during the 2025 Calendar Year.
- (m) New Franchise Outlet – means, as to a particular Calendar Year, a Franchise Outlet that for the first time opened and commenced operations during the Calendar Year.
