

ITEM 19
FINANCIAL PERFORMANCE REPRESENTATIONS

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in this Item 19 may be given only if: (1) a franchisor provides the actual records or an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

As of December 31, 2024, we had 107 operating franchised outlets. This financial performance representation contains data only for the 96 franchised outlets that had been open for business for at least 12 months in the period ending December 31, 2024.

Written substantiation for the financial performance representations made in this Item 19 will be made available to you upon reasonable request.

Some Go Mini's outlets have earned these amounts. Your individual results may differ. There is no assurance you'll earn as much.

**GROSS SALES AND NUMBER OF CONTAINERS AT FRANCHISED GO MINI'S OUTLETS
OPEN FOR AT LEAST 12 MONTHS ON DECEMBER 31, 2024 (NOTES 1- 10)**

Number of Franchised Territories (Note 1)	Number of Reporting Franchisees (Notes 1 and 2)	Total Number of Territories in Operation (Notes 1 and 2)	Total Gross Sales (Notes 3 and 4)	High/Low Total Gross Sales (Note 5)	Average Gross Sales (Notes 3 and 6)	Median Gross Sales (Notes 3 and 7)	Total Number of Containers (Notes 8 and 9)	Average Number of Containers (Notes 7 and 9)	Median Number of Containers (Notes 8 and 11)
Franchisees with 4-7 Franchise Territories	6	33	\$5,534,034	\$2,405,557/ \$414,597	\$922,339	\$677,739	3,047	508	404
Franchisees with 2-3 Franchise Territories	13	31	\$5,506,197	\$1,123,393/ \$65,092	\$423,554	\$331,508	2,879	221	128
Franchisees with 1 Franchise Territory	32	32	\$8,267,286	\$1,013,244/ \$8,241	\$258,353	\$229,516	5,122	160	195

(CONTINUED ON NEXT PAGE)

NOTE 1:

As of December 31, 2024, we had a total of 107 franchised outlets representing 107 territories. The table above includes actual historical unaudited information we collected from the 96 franchised outlets representing 96 territories that had been open for business for at least 12 months in the period ending December 31, 2024.

Go Mini's franchisees who desire to operate their franchised business in multiple territories sign an additional Franchise Agreement for each additional territory they purchase. These franchisees typically use the same entity to own and operate each additional territory purchased under a separate Franchise Agreement (the "Franchisee Ownership Entity"). Each Franchisee Ownership Entity then either reports all of their Gross Sales and Number of Containers in their territories to us as (i) a separate account for each territory the Franchisee Ownership Entity owns and operates or (ii) a single combined account for all the territories the Franchisee Ownership Entity owns and operates (collectively, the "Reporting Franchisees").

The figures in the table are taken from reports submitted to us by the Reporting Franchisees on their Gross Sales and Number of Containers as of December 31, 2024. All information collected is unaudited. As of December 31, 2024, there were 51 Reporting Franchisees representing 46 Franchisee Ownership Entities for the 96 franchised outlets open for business for at least 12 months.

The Go Mini's franchisees covered in the table above average (i) \$184 per month in rental costs from customers for each container rented; (ii) \$89 delivery and pick up fees paid by customers per container; and (iii) a 4 month customer rental period, regardless of the number of territories each Reporting Franchisee operates.

Our 30 Dealer locations are excluded from this financial performance representation, because while they own and operate a similar business to the one offered in this Disclosure Document, they operate their Dealer business under Dealer Agreements with different terms than those offered in our Franchise Agreement.

NOTE 2:

As of December 31, 2024, there were 6 Reporting Franchisees operating in 33 territories with each Reporting Franchisee operating in 4 – 7 territories.

As of December 31, 2024, there were 13 Reporting Franchisees operating in 31 territories with each Reporting Franchisee operating in 2 – 3 territories.

As of December 31, 2024, there were 32 Reporting Franchisees operating in 32 territories with each Reporting Franchisee operating in 1 territory.

NOTE 3:

"Gross Sales" means the total of all revenues derived from the operation, activities or existence of the Go Mini's business including revenues from rentals and sales of products, national accounts and services, whether cash, credit or otherwise; insurance payments, settlements, and other fees, commissions, rents, payments, revenues or receipts received related to the business. There is no reduction for operating costs or expenses, collection agency or credit card charges, litigation costs, income, business or other taxes. But Gross Sales excludes the amount of state or local sales or use tax identified in receipts or invoices to customers and paid to the taxing agency.

NOTE 4:

The Total Gross Sales listed is for the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024; 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024; and 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024.

NOTE 5:

The High/Low Total Gross Sales listed is for the Reporting Franchisees with the highest and lowest Gross Sales operating in 4-7 territories for at least 12 months in 2024; 2-3 territories for at least 12 months in 2024; and 1 territory for at least 12 months in 2024. The Reporting Franchisees with the lowest Gross Sales operating in 2-3 territories for at least 12 months in 2024 and 1 territory for at least 12 months in 2024 have lower Gross Sales than our other franchisees because they are Go Mini's Dealers that converted to franchised locations under different terms than the terms of our current franchisees and as a result, are not required to purchase additional containers or expand their territories.

NOTE 6:

The Average Gross Sales for the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024 is the sum of all Gross Sales reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (6).

Average Gross Sales for the 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024 is the sum of all Gross Sales reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (13).

The Average Gross Sales for the 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024 is the sum of all Gross Sales reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (32).

NOTE 7:

The Median Gross Sales for the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024 is the data point at the center of all data points. In this even numbered sequence, the two numbers in the middle of this 6 data point set are the third and fourth numbers, which are \$718,774 and \$636,704. By adding these together ($\$718,774 + \$636,704 = \$1,355,478$), and dividing by two ($\$1,355,478/2$), the median is \$677,739.

The Median Gross Sales for the 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024 is the data point at the center of all data points. In this odd numbered sequence, the median is the number in the middle of this 13 data point set, which is \$331,508.

The Median Gross Sales for the 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024 is the data point at the center of all data points. In this even numbered sequence, the two numbers in the middle of this 32 data point set are the sixteenth and seventeenth numbers, which are \$247,081 and \$211,951. By adding these together ($\$247,081 + \$211,951 = \$459,032$), and dividing by two ($\$459,032/2$), the median is \$229,516.

NOTE 8:

The Total Number of Containers means the sum of all containers the Reporting Franchisees have in all the territories in which they operate.

NOTE 9:

This column identifies the Total Number of Containers owned by the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024; the Total Number of Containers owned by the 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024; and the Total Number of Containers owned by the 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024.

NOTE 10:

The Average Number of Containers for the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024 is the sum of all Containers reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (6).

The Average Number of Containers for the 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024 is the sum of all Containers reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (13).

The Average Number of Containers for the 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024 is the sum of all Containers reported to us by those Reporting Franchisees, divided by the number of Reporting Franchisees (32).

NOTE 11:

The Median Number of Containers for the 6 Reporting Franchisees each operating in 4-7 territories for at least 12 months in 2024 is the data point at the center of all data points. In this even numbered sequence, the two numbers in the middle of this 6 data point set are the third and fourth numbers, which are 419 and 389. By adding these together ($419 + 389 = 808$), and dividing by two ($808/2$), the median is 404.

The Median Number of Containers for the 13 Reporting Franchisees each operating in 2-3 territories for at least 12 months in 2024 is the data point at the center of all data points. In this odd numbered sequence, the median is the number in the middle of this 13 data point set, which is 128.

The Median Number of Containers for the 32 Reporting Franchisees each operating in 1 territory for at least 12 months in 2024 is the data point at the center of all data points. In this even numbered sequence, the two numbers in the middle of this 32 data point set are the sixteenth and seventeenth numbers, which are 214 and 176. By adding these together ($214 + 176 = 390$), and dividing by two ($390/2$), the median is 195.

Other than the financial performance representations listed above, we do not make any representations about a franchisee's future financial performance or the past financial performance of company-owned, affiliate-owned or franchised business. We do not authorize our employees or representatives to make any such representations either orally or in writing. If you are purchasing an existing business, however, we may provide you with the actual records of that business. If you receive any other financial performance information or projections of your future income, you should report it to our management by contacting Chris Walls, 9160 Forum Corporate Parkway, Suite 350, Ft. Myers, Florida 33905. Telephone: 877-604-6464, the Federal Trade Commission and the appropriate state regulatory agencies.
