## **ITEM 18 PUBLIC FIGURES**

We do not employ any public figure or celebrity in our management, nor do we use a public figure or celebrity to promote our franchises.

## **ITEM 19 FINANCIAL PERFORMANCE REPRESENTATIONS**

The FTC’s Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

### **TABLE 1 ANALYSIS OF HISTORICAL GROSS SALES FOR ALL FRANCHISED SLIM CHICKEN’S RESTAURANTS THAT WERE OPEN AND OPERATING DURING THE ENTIRE FISCAL YEAR 2024**

This Table 1 analysis contains historical average and median Gross Sales incurred in operating existing Slim Chicken’s franchised Restaurants that were open and operating during the entire 2024 fiscal year ended December 29, 2024.

As of the last fiscal year ended December 29, 2024, there were 192 franchised Restaurants open and operating in the United States, specifically in Alabama (12), Arkansas (19), Arizona (3), Colorado (6), Florida (14), Georgia (4), Idaho (1), Iowa (2), Illinois (2), Indiana (3), Kansas (6), Kentucky (10), Louisiana (2), Maryland (3), Michigan (2), Minnesota (2), Missouri (9), Mississippi (6), Montana(1), North Carolina (6), North Dakota (3), Nebraska (3), Nevada (1), New Mexico (3),

Ohio (3), Oklahoma (9), Pennsylvania (1), South Carolina (7), South Dakota (3), Tennessee (8), Texas (31), Utah(4), Virginia (1), Washington (1), Wisconsin (1).

Of these 192 Restaurants, 173 of these Restaurants represent the two standard prototypes currently under development and 147 were open and operating for the entire 2024 fiscal year. We exclude from this analysis: (a) 19 Restaurants as they do not represent the standard prototype Restaurant currently under development: (b) 5 are associated with military bases, (c) 8 Restaurants that are non-prototype or non-freestanding facilities without a drive thru that are located on college campuses and do not operate year-round, and (d) 6 Restaurants that are non-traditional locations attached to other businesses or without drive thrus. Table 1 also excludes 26 standard prototype franchised Restaurants in the United States that opened and began operating during fiscal year 2024 and therefore were not open and operating for the full 2024 fiscal year (but see Table 2 below), 61 additional franchised Restaurants located in the United Kingdom, one in Germany, and one in Turkey.

Table 1 presents average and median Gross Sales information for the 2024 fiscal year for the 147 franchised Restaurants that were open and operating for the full 2024 fiscal year which are representative of the current prototype Restaurant under development. These Restaurants have been sorted into four groups based on the full fiscal year Gross Sales. Group 1 represents locations with at least \$3,025,0900 in Gross Sales. Group 2 represents locations with less than \$3,025,000 and greater than \$2,310,000 in Gross Sales. Group 3 represents restaurants with less than \$2,310,000 and greater than \$1,780,000 in Gross Sales. Group 4 represents restaurants with less than \$1,780,000 in Gross Sales.

The information in the table is derived from our franchisee's sales reports and is unaudited and unverified.

4 (Gross Sales <	\$1,429,263	\$1,491,154	37	21	18	\$1,778,819	\$637,851

In the aggregate, the highest Gross Sales amount for the Restaurants in the above table was \$5,608,642 and the lowest Gross Sales amount for the Restaurants in the above table was \$637,851. In the aggregate, Average Gross Sales for all 147 Restaurants was \$2,436,728 and Median Gross Sales for all 147 Restaurants was \$2,305,930.

Gross Sales consists of the total sales price of all food products (including take-out, drive-thru or catering) and all other products and services sold by the Slim Chicken's Restaurants, including discounts and excluding taxes collected directly from customers and paid to taxing authorities.

**TABLE 2**  
**ANALYSIS OF HISTORICAL GROSS SALES FOR**  
**ALL FRANCHISED SLIM CHICKEN'S RESTAURANTS**  
**THAT WERE NEWLY OPENED DURING FISCAL YEAR 2024**

As noted above, 28 new franchised Restaurants opened in 2024. While we excluded these 28 Restaurants from the above Table 1 analysis since none of the 28 Restaurants were open and operating the entire 2024 fiscal year, 15 of these Restaurants were both open for the entire second half of the fiscal year and represent one of the two standard prototype Restaurants. These Restaurants were opened between January 8, 2024, and June 19, 2024 and therefore all 15 of these Restaurants operated for at least six months in fiscal year 2024. During the last six-month period of the 2024 fiscal year from July 1, 2024, to December 29, 2024, these 15 Restaurants averaged \$51,010 per week in Gross Sales per Restaurant for standard business weeks without holiday closures, with a median of \$47,070 per week in Gross Sales. The highest weekly Gross Sales for the 15 Restaurants was \$85,549, and the lowest weekly Gross Sales for the 15 Restaurants was \$25,526.
