### **FINANCIAL PERFORMANCE REPRESENTATIONS**

The FTC’s Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the Disclosure Document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

As of December 31, 2024, there were approximately 3,109 domestic Chick-fil-A Restaurants open and operating, including approximately 2,684 domestic company-operated and franchised Operator Chick-fil-A Restaurants and 425 domestic Chick-fil-A Licensed Units. The domestic Chick-fil-A Restaurants which are operated by Chick-fil-A and Chick-fil-A Operators, and their annual sales volumes are not the subject of these Financial Performance Representations.

As of December 31, 2024, all 425 domestic Chick-fil-A Licensed Units were being operated by independent, franchised Licensees. Approximately 409 of those 425 domestic Chick-fil-A Licensed Units being operated by Licensees had been open for at least one full calendar year as of December 31, 2024 and had been operated by Licensees during the entire year. The 409 domestic Chick-fil-A Licensed Units that had been open for at least one full calendar year as of December 31, 2024 and their annual sales volumes are the subject of these Financial Performance Representations and discussed below.

In 2024, of the 409 domestic Licensed Units open for at least one full calendar year, 312 Licensed Units are located on college or university campuses. The median annual sales volume of domestic Licensed Units located on college or university campuses that were open at least one year as of December 31, 2024 was \$897,932 and the average annual sales volume was \$1,395,745 with 126 of the 312 or 40% that did as well or better than \$1,395,745 in annual sales. The highest and lowest annual sales volume for these college and university Chick-fil-A Licensed Unit locations open for at least one full calendar year in 2024 was \$4,906,963 and \$192,830, respectively. Approximately 10% of these locations had annual sales volumes less than \$500,000; approximately 13% had annual sales volumes between \$500,000 and \$750,000; approximately 19% had annual sales volumes between \$750,000 and \$1,000,000; approximately 35% had annual sales volumes between \$1,000,000 and \$2,000,000; and approximately 23% had annual sales volumes in excess of \$2,000,000.

In 2024, of the 409 domestic Licensed Units open for at least one full calendar year, 97 Licensed Units are located at hospitals, businesses, industries or airports. The median annual sales volume of

domestic Licensed Units located at hospitals, businesses, industries or airports that were open at least one year as of December 31, 2024 was \$3,152,764, and the average annual sales volume was \$3,451,788 with 45 of the 97 or 46% that did as well or better than \$3,451,788 in annual sales. The highest and lowest annual sales volume for these hospital, business, industry and airport Chick-fil-A Licensed Unit locations open for at least one full calendar year in 2024 was \$11,573,107 and \$150,498, respectively. Approximately 11% of these locations had annual sales volumes less than \$1,000,000; approximately 33% had annual sales volumes between \$1,000,000 and \$2,000,000; approximately 30% had annual sales volumes between \$2,000,000 and \$4,000,000; and approximately 26% had annual sales volumes in excess of \$4,000,000.

During the calendar year ending December 31, 2024, 2 domestic Licensed Units located on college or university campuses permanently closed, of which 0 had been open for less than 12 months, and 3 domestic Licensed Units located at a hospital, business, industry or airport permanently closed, of which 0 had been open for less than 12 months.

For purposes of the financial performance representations set forth above, the term “annual sales volume” includes a Chick-fil-A Licensed Unit’s entire gross receipts (excluding only sales taxes levied upon retail sales and payable over to the appropriate governmental authority) from all sales at, from or related to the Chick-fil-A Licensed Unit during the applicable calendar year, whether for cash or on a charge, credit or time basis, including sales and services (i) where orders originate and/or are accepted at or in the Chick-fil-A Licensed Unit, or (ii) pursuant to telephone or other similar orders received or filled at or in the Chick-fil-A Licensed Unit.

The financial performance representations set forth above are based upon a total of 409 domestic Chick-fil-A Licensed Units that were open for at least one year as of December 31, 2024, of which 312 were located on college or university campuses and 97 were located at hospitals, businesses, industries or airports. Both domestic Chick-fil-A Licensed Units located on college or university campuses and domestic Chick-fil-A Licensed Units located at hospitals, businesses, industries or airports are similar with respect to their operations and receive similar services from Chick-fil-A. Because domestic Chick-fil-A Licensed Units located on college or university campuses and domestic Chick-fil-A Licensed Units located at hospitals, businesses, industries or airports achieve generally different levels of financial performance, financial performance representations have been included for each type of unit in order to provide information relevant to prospective Licensees.

**Some Chick-fil-A Licensed Units have sold this amount. Your individual results may differ. There is no assurance that you’ll sell as much.**

You are urged to consult with appropriate financial, business and legal advisors in connection with the information set forth in this analysis.

A new Licensee’s individual financial results may differ from the results stated in the Financial Performance Representations for the reasons stated below.

The Financial Performance Representations do not reflect the costs of sales or operating expenses that must be deducted from the gross revenue or gross sales figures to obtain your net income or profit. The best source of cost and expense data may be from Licensees and former Licensees, some of whom may be listed in Item 20.

Individual Licensees are likely to experience annual sales volume variations. A Chick-fil-A Licensed Unit’s physical location within any particular geographic area, a Chick-fil-A Licensed Unit’s physical location among different geographic areas of the country, the operational skill and the management methods employed by a Licensee, and menu price variations may significantly affect the sales realized in any given
