

<b><u>Provision</u></b>	<b><u>Section in Agreements</u></b>	<b><u>Summary</u></b>
w. Choice of law	§ 23.1 of Franchise Agreement. § 13.1 of Area Development Agreement. § 10(d) of Coastal Agreement.	North Carolina applies (subject to state law). See Notes 1 and 2.

**Notes:**

1. In addition to the provisions noted in the preceding table, the Franchise Agreement and Area Development Agreement contain a number of provisions that may affect your and our legal rights in any dispute between us, such as a mutual waiver of a jury trial, a mutual waiver of punitive or exemplary damages, and a reduced time frame within which either of us may initiate proceedings against the other. See Franchise Agreement Section 23 and Area Development Agreement Section 13. One or more of the three above-described provisions may not be enforceable under the laws of your state. We recommend that you carefully review all of these provisions, and the entire agreements, with your attorney. Please also refer to the State-Specific Disclosures and Agreement Amendments in Exhibit K for further details.
2. Some states have laws that will supersede the choice of forum and/or choice of law provisions of these agreements. Please refer to the State-Specific Disclosures and Agreement Amendments in Exhibit K for further details. You also may wish to consult with your attorney.

**ITEM 18**  
**PUBLIC FIGURES**

Golden Corral does not use any public figures to promote Golden Corral Restaurant franchises.

**ITEM 19**  
**FINANCIAL PERFORMANCE REPRESENTATIONS**

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

The following Tables present certain historical financial information for franchised Golden Corral Restaurants. The Tables exclude franchised Restaurants using a building design other than the GC-11S and GC-11M, because only those two designs have been available to new franchisees for the last several years (see Item 1). We had a total of 348 franchised Restaurants in operation at the end of our fiscal year on January 1, 2025, including Restaurants with other building designs.

The explanatory notes accompanying the Tables are an important part of the information presented.

Table 1 below provides the average gross sales, selected expenses, and average operating income for fiscal year 2024 (the period January 3, 2024 through January 1, 2025), by building design, for 232 franchised Restaurants utilizing the GC-11S or GC-11M building design. Table 1 excludes 2 GC-11M franchised Restaurants that had been in operation for less than 6 months as of January 1, 2025.

In 2024, two of the franchised GC-11M Restaurants in Table 1 had been open for more than six months but fewer than 12 months as of the end of the fiscal year. The data of these Restaurants have been annualized to conform to the presentation in Table 1. The annualized data did not have a material impact on the results shown in Table 1.

#### EXPLANATORY NOTES TO TABLES 1-4:

**Note 1:** “Gross Sales” is defined in Item 6, Note 2. Upon information and belief, but without the benefit of any investigation or inquiry by us, the sales reported to us by our franchisees and titled “Gross Sales” reflect sales for the Restaurants included in each Table. Gross Sales reflect the total 2024 sales for the Restaurants included in each Table, and do not include sales taxes. Variations among Restaurants may be caused by a variety of factors, such as location, varying degrees of accuracy in the financial information that franchisees report to us, demographics, general economic conditions, weather conditions, menu mix, competition and other seasonal factors, as well as the efforts of the individual Restaurant management team.

**Note 2:** Upon information and belief, but without the benefit of any investigation or inquiry by us, the costs and expenses reported to us by our franchisees and titled “Operating Costs and Expenses” reflect operating costs and expenses for the Restaurants included in each Table. The Tables reflect only operating expenses, and do not include capital expenses or fixed expenses such as (but not limited to) land, building and/or equipment rent, debt service, depreciation, advertising, administrative expenses such as accounting or legal expenses, taxes, licenses, or insurance. To our knowledge, the reported expenses also do not include (i) a 4% royalty on Gross Sales which is payable by a franchisee; (ii) the cost of any additional supervisory personnel; or (iii) any expenses for transportation, room and board for attending training refresher courses.
