ITEM 19

FINANCIAL PERFORMANCE REPRESENTATIONS

The FTC's Franchise Rule permits a franchisor to provide information about the actual financial performance of its franchises and/or franchisor-owned units, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

The financial performance representation information in this Item 19 includes certain financial performance information relating to our Stores' operation in calendar year 2024. We obtained 100% of the gross sales data for the Stores listed in the Store Sales Table and the other financial performance representations included in this Item 19 from monthly sales reported to us by the Stores. The monthly sales reports have

not been audited by certified public accountants nor have we sought to independently verify their accuracy for purposes of the financial performance representations. Not all Stores properly reported sales in 2024.

The financial performance representations include annual gross sales of Stores for the year 2024. “Gross sales” means all revenues from the sale of products or services, except sales taxes are excluded and refunds and credits are deducted (to the extent the refund or credit represents amounts previously included in gross sales).

Center Sales Study

In our Center Sales Study, we disclose the average and median gross sales in 2024 of Stores in the United States in operation for one (1) full year or more as of December 31, 2024, which properly reported their sales for twelve (12) months in 2024. They have been segmented into 2 categories: (1) Stores that employed at least one Full Time outside salesperson in 2024; and (2) Stores that did not employ a Full-Time outside salesperson in 2024. Of the 167 US locations, 129 were included in this table, while 20 were excluded for not being open for one full calendar year as of December 31, 2024, and 18 were excluded because they each failed to properly report their sales for all twelve (12) months in 2024.
